Review and change of fees will be assessed on an annual basis, at the end of each financial year. Changes in fees will likely reflect increases in the National Living Wage, inflation and the cost-of-living index.

In exceptional circumstances, for example, where there is a major change in legislation, sector regulations or government policy which significantly increases our costs of providing the service (for example new minimum staffing requirements or unforeseen

changes to the national minimum wage of living wage), we may at the time of the annual review, increase our fees to reflect the increase in costs.

CSK Home Care Ltd may increase or decrease fees at other times where there is a significant change in care needs, as assessed by healthcare professionals, resulting in us incurring either additional or reduced costs. For example, the number of carers required increasing from 1 to 2 to meet changing care needs. These changes will be discussed prior to an implemented change.
