Regulated by

Care People UK is one of the UK's leading Care Work providers and have been delivering high quality and personal assistance to care homes.

As a company we are proud to provide a flexible, consistent, compassionate and highly personalised care and support service. With many years' experience in providing staff, we pride ourselves in offering superior services delivered by our vast portfolio of dedicated health and social care professionals with a wealth of experience and expertise to meet all our clients' staffing, care and support needs.

We are a recognised health and social care provider with an established impeccable reputation for professionalism and integrity within the industry.

Our team of specialist consultants are experts in their respective fields and adopt a consultative and personalised approach to the services we provide, guiding candidates through the next steps in their careers and working in tandem with clients in order to meet their resourcing requirements.

### **Residential and Nursing Homes**

Our services are designed to meet the needs of those who require assistance and support to continue living comfortably. We offer a client-centred service that is tailored to meet the individual client's needs.

### **Live-in Care**

We are committed to providing you with care of the highest quality in the comfort and safety of your own home. Having a stranger in your home can be worrying and therefore we do everything possible to select a carer that will be right for you and to suit your situation. Our team will visit you at your home to understand your needs and work with you or relatives on your care plan. This information is used to help ensure compatibility between you and your carer.

### **Hospitals and Hospital Discharge**

We provide a 24 hour, 7 days a week hospital discharge service in your own home to prevent unnecessary admission in hospitals, nursing homes or residential care homes. Our carers are well trained and experienced to meet your needs.
