

Global Wave Ltd – Service Rate Information

At Global Wave Ltd, our published rates represent the **starting prices** for basic companionship and general support. This includes tasks such as light domestic duties, meal preparation, and routine day-to-day assistance.

Because every individual's needs are unique, the final cost of care may vary. Rates will increase depending on the **complexity of support required**, particularly where personal care, specialist tasks, or higher-level support needs are identified.

Standard Starting Rates

- **24-Hour Rate (per day): £170.00**
- **Hourly Rate: £28.00**
- **Live-In Rate (per week): £1,190.00**
- **Overnight Rate (per night): £170.00**

Examples of When Rates May Increase

- **Personal Care Needs**
Support with washing, dressing, continence care, medication administration, or mobility assistance.
- **Complex Health or Behavioural Needs**
Support for individuals with dementia, mental health conditions, learning disabilities, or challenging behaviours.
- **Specialist Tasks**
PEG feeding, catheter or stoma care, hoisting, or other clinical-related activities requiring trained staff.
- **Enhanced Support Requirements**
Situations requiring two carers (double-up support), increased supervision, or higher-intensity monitoring.

Each care package will be individually assessed to ensure the appropriate level of support is provided. Pricing will reflect the complexity, risks, and specific needs of the individual.
