Evidence of funding

We reserve the right to ask for evidence of funding, which is normally one year.

Should you decide to apply for funding from the local authority in the future, the conditions of the contract remain unchanged. Where a difference exists between the agreed cost and the total purchase cost agreed by the local authority, A top-up contribution can be required from you.

If your financial circumstances change, we request that you give us sufficient notice to help point you in the right direction to apply for alternative funding from the local authority (usually six months). Fees are reviewed annually with changes effective from 1st October each year. These will be in line with the government-published National Living Wage % increase, which is renewed every April.

The Society reserves the right to change the fees payable at any time if the resident changes their bedroom to one of a different standard or where there is a change in the level of care and support required. This will be discussed with you at a review meeting, and you will be entitled to see the details of the assessments we have relied upon as a part of the consultation and decision-making process.
