

Purely Care Live in Care Costs

Live in care charges vary depending on the needs of the client.

Our packages start from £1640 per week. This assumes that the carer will be able to sleep at night with minimal disturbance.

Relief carer for 2 hours each day to allow the carer a break and keep their working hours within the working time regulations. This is 14 hours per week at the relevant hourly rate of £31/£33.

In order to meet the working time regulations, the carer cannot work more than 10 hours in each day (24 hour period). This includes any night time calls that are required.

In complex cases where the individual needs to be attended for more than 10 hours or where there are repeated night time disturbances, we would be happy to provide an individual quote.

When the carer changes we always have one of our supervisors present for a managed handover. We also regularly check on the carer while they are with a client.

Purely Care is an independent Norwich-based care provider. Established in 2011.

In our Norfolk County Council "PAMMS" inspection in May 2024 we scored GOOD in all areas.
